About Aetherion Technologies

Aetherion Technologies Inc. is a global clean transportation technology company delivering proven, commercially ready solutions that help fleets and original equipment manufacturers (OEMs) improve performance, efficiency and energy flexibility. Built on decades of engineering expertise, Aetherion develops advanced fuel delivery, storage and control technologies for heavy-duty mobility applications. Its proven technologies support a wide range of alternative fuels—including natural gas, renewable natural gas and hydrogen—empowering OEMs and commercial transportation fleets to meet demanding performance standards, evolving regulatory requirements and climate objectives in a cost-effective way. Through its portfolio of differentiated technologies and strategic partnerships, Aetherion is accelerating practical, scalable pathways to affordable, lower-emission transportation worldwide. Aetherion is headquartered in Vancouver, Canada. For more information, visit www.aetheriontech.com.

Cautionary Note Regarding Forward Looking Statements

This press release contains forward-looking statements within the meaning of applicable

securities laws, including statements regarding the expected timing of Aetherion's release of its third quarter 2026 financial results and the planned conference call and webcast to discuss those results and other corporate developments. These statements are based on Aetherion's current expectations and are subject to risks and uncertainties that could cause actual events or results to differ materially. Aetherion undertakes no obligation to update or revise any forward-looking statements, except as required by applicable law.
